Revised July 2018

BURSARY POLICY

BACKGROUND

One of the key strategic objectives of ILASA is to transform the Landscape Architectural profession with the ultimate aim that it reflects the demographics of the South African population.

The envisaged Bursary Scheme is to target previously disadvantaged individuals and to promote balance and diversity within the Landscape Architectural profession. This is to further enable and encourage previously disadvantaged individuals to obtain financial assistance to become registered professionals.

The Bursary Scheme is aimed at contributing to build greater capacity, commitment, accountability and responsiveness in the Landscape Architectural field. The personal career advancement of the individual applicant, while an important outcome of the bursary process, is secondary to the over-arching goal of strengthening and encouraging individuals to follow careers in the Landscape Architectural sector.

ILASA is committed to investing considerable resources in its potential bursars and the individual support it offers its applicants in order to meet the goals, as set out above.

ILASA will/shall therefore advertise for deserving applicants to apply for these bursaries on an annual basis and will award bursaries, where possible, to those individuals pursuing careers that will benefit the Landscape Architectural Sector.

1. PURPOSE

The purpose of the Bursary Policy is to:

- Provide guidelines and set up procedures for awarding ILASA Bursaries.
- Define key steps in awarding of the ILASA Bursaries.

2. ELIGIBILITY / REQUIREMENTS

Bursaries may be provided to both under-graduate (all years) as well as post-graduate STUDENTS / applicants who comply with the identified criteria and have been admitted for study at a South African University / University of Technology and enrolled in a Landscape Architectural programme accredited by the South African Council for the Landscape Architectural Profession (SACLAP).

3. APPLICATION PROCESS

At its discretion, ILASA will either publish an advertisement on its website requesting applications for bursaries for the following academic year and/or will approach nominated eligible STUDENTS to apply.

The advertisement and/or application documents will provide details of Landscape Architecture courses that have been prioritised for bursary funding together with details of closing dates and the application process.

No bursary applications will be considered after the closing date and **NO** bursaries will be awarded outside of the application process and stipulated time-lines.

No bursaries will be awarded to STUDENTS who wish to enrol in a programme that has not been accredited by South African Council of Landscape Architect Professions (SACLAP).
